COLLIN FARMERS TO BE GIVEN SEED LOANS THIS YEAR

A. H. Eubanks, vice president and cashier of the Central State bank, and wife were in Dallas Monday, Mr. Eubanks going down to make the principal address at a meeting of the R. F. C. seed loan division, held for the office force, field representatives and other workers in that governmental body. The meeting was called by Owen W. Sherrill. Carl Gallagher, formerly of this city, who is engaged with Mr. Sherrill in this relief work, in several states, also attended the meeting.

It is Mr. Eubanks' opinion that from 400 to 500 farm loans will be made to Collin county farmers this year, helping them to make their crops this spring and summer, equivalent to $30,000 to $50,000. It is a commendable fact, this McKinney banker points out, that of the nearly 200 loans made in the county last year, all but five have already been paid back. Of this five, three have paid back better than 75 per cent of their loans.

Collin county was referred to as one of the banner agricultural counties in the state at the Dallas meeting, so Mr. Eubanks informs these editors.

LIONESSES TRIM FARMERSVILLE IN DOUBLE-HEADER

The McKinney High Lionesses completed their third straight season without a conference defeat in Princeton Tuesday night as they swept a double-header from the Farmersville High Farmerettes. The first team won 18 to 14, while the second team won 33 to 5.

Only four regulars played during the first half of the first string game. Farmersville led 7 to 4 at the end of the first quarter; while McKinney led 13 to 11 at the half, and 14 to 13 at the end of the third quarter.

Vaneta LaFollette won high scoring honors for the locals with 12 points while Womble scored 7 for the Farmerettes.

Maggie Lou Miller scored 15 for McKinney in the second team game, while Jean scored 3 for Farmersville.

Mrs. J. W. Dowdy, who has been ill for the past ten or twelve days, is improved Wednesday.

T. J. Wynne was here Wednesday from Wichita Falls. Formerly resided here, where he has many friends.

Rasco Reed, district manager of the Gulf Refining company, has moved into the new six-room rent house, just completed by F. B. Pope on South Kentucky street.

J. N. Bush was here from Mineral Wells, where he has been staying for quite awhile. He has returned to Mineral Wells, to remain awhile longer.

The singing school, in progress here for the past week at the Nazarene church, continues. Large crowds are attending each night. Otis Deaton of Dallas is conducting the school.

Cards have been received announcing the arrival of little Miss [illegible]

MASS MEETING HELD IN CITY TUESDAY NIGHT

No definite action, other than the election of organization officers, was taken by a group of McKinney voters "desiring a change in the city elective officers," held at the courthouse Tuesday night. A steering committee of nine men, headed by Hon. N. A. Burton, chairman, was appointed to report at the next meeting, Feb. 28, on possible candidates for Mayor and Commissioners. If no decision is reached, the present city officers will be supported for re-election.

Hon. H. L. Davis was elected chairman of the organization and Hon. John D. Reese, secretary.

Mr. Ed Kerby of Climax also spoke in favor of public ownership of utilities. He was followed by Judge T. C. Andrews and Hon. Sam J. Massie, former alderman, who argued for reduced taxes. Mr. Massie asked for any person in the audience whose city taxes had been reduced in the last ten years to stand. No one answered. He closed by stating that all city taxes have increased from two to five times in the last ten years.

A nominating committee, composed of Dr. W. T. Hoard, chairman; Hon. I. E. Reeves and Hon. J. R. Travillion, nominated the steering committee, which was unanimously approved

McKINNEY MAN PRESIDES AT WASHINGTON MEETING MASONIC GRAND MASTERS

Judge Wallace Hughston of McKinney, grand master of Masons in Texas, who was elected chairman of the 1933 conference of grand masters of the United States, presided over the annual banquet in their honor at the Willard hotel, Washington, D. C., Monday evening. There were 150 grand masters, past grand masters, and grand lodge officers in attendance. Sol Bloom, representative from New York, was seated with Grand Master Hughston and other dignitaries.

The Texas delegation was seated facing the table of the grand master, with Melvin Johnson, past grand master of Massachusetts, with the Texas party. After the banquet there was shown for the first time a motion picture of the Masonic ceremonies of the relaying of the corner stone of the national capital under auspices of the grand lodge of the District of Columbia.

More than 150 persons took part in the picture and a large amount of government equipment was used. Grand Master Hughston closed the banquet with an address at 11 o'clock. He will return to Washington a year hence to open the conference and install his successor in office, as the chairman holds his office only for one year.

Tuesday morning the grand masters and Masonic officials were taken in busses to the George Washington Masonic National Memorial Temple in Alexandria, Va. The grand master of Virginia delivered the address of welcome. Grand Master H. K. Winslow of Oregon responded. Among the speakers on the first day's program was Hon. John H. Crooker of Houston, grand senior warden of the Texas grand lodge. Mr. Crooker followed Past Grand Master Bell of Illinois and Col. Louis Block of Iowa. He was the first speaker after lunch.

BUY-LO GROCERY ENJOYS SPLENDID GROCERY TRADE

One of our county's busiest, largest and most modern retail grocery stores is the Buy-Lo Cash grocery and meat market, owned and actively managed by P. R. Westmoreland of McKinney. It is located at 222 East East Louisiana street, facing on one of the city's best paved business streets with excellent room in the rear of the store for parking by customers who wish to load or unload merchandise.

Mr. Westmoreland came to McKinney when a youth and by dint of hard work, perseverance, friendliness and honesty, he steadily advanced in business influence and prestige from a penniless boy to a successful merchant and business man, also the owner of some first-class farm land and eight or ten first-class rent houses in the city besides his modern two-story brick residence in which he and Mrs. Westmoreland reside.

Mr. Westmoreland is a liberal user of newspaper publicity in the conduct of his business and has found that it pays to advertise and to let the people of our county keep familiar with his merchandise and with the stock and location of his modern store. Its arrangement shows both good taste and skill.

He carries a big line of bulk seed of every kind, also of stock and poultry feed and supplies. His fresh vegetable department and fruit stand include a big variety of stock to choose from in those lines. His meat market department, presided over by Homer Hooper, an expert meat cutter, carries a big assortment of all kinds of fresh meats, winter and summer. It is kept neat as a pin and in a perfectly sanitary condition. In fact, every department of Mr. Westmoreland's store is ideally arranged for convenience, sanitation and display.

Mr. Westmoreland greatly appreciates his accommodating, polite force of clerks who welcome and wait upon his trade. His clerks are Clay Durrett, Dean Tucker, Wiley B. Dugger, Truett [illegible], Jack [illegible], truck driver and clerk; Homer Hooper, meat cutter, and the following [illegible]

$100 IN GOLD EXTRA PRIZE IS OFFERED

Saturday night at 9 o'clock.

That's the end of the big special $100 in gold and 90,000 extra vote offer. Every effort should be made to get every subscription possible before the offer closes—for the votes so obtained will be the winners of the big automobile and six cash awards to be given away at the close of the campaign, March 11.

In order to give all candidates the same length of time to work on the offer, all subscription payments bearing the postmark of not later than 9 p. m. Feb. 25, will apply on the offer. Now is the time for all supreme effort.

Honor personal pride and supreme satisfaction in winning are potent factors behind the hustling candidates who are daily nearing the end of the $100 in gold and 90,000 extra vote offer in The Daily Courier-Gazette and The Weekly Democrat-Gazette's Big $2,000 Circulation Prize Campaign.

The big double offer closes Saturday night at 9 o'clock, Feb. 25. Only three days more after today. The campaign ends March 11.

"They certainly are working," said the campaign manager last night. "I never saw anything like it—the way they are going after the extra gold and extra votes. And you can not blame them for the present offer certainly is a wonderful opportunity to get votes—and its votes you know that decide the winners of the big automobile and other cash prizes to be given away March 11.

The rush to accomplish everything before the offer closes is sending candidates into every nook and corner of The Daily Courier-Gazette and The Weekly Democrat-Gazette territory to get subscriptions — for subscriptions to get votes—and votes to get automobile.

The standings of the candidates include only those who want an automobile and are putting forth their best efforts to win. Those who have less than 100,000 votes have been dropped from the list and will not be reinstated until [illegible]

[illegible]ing a close. When it is considered that the present offer is so short—and that it presents almost as big an opportunity to get extra votes as the first offer; it is no wonder that there has been such a whirlwind of enthusiasm. And in addition, there are extra gold prizes that it seems as though any ambitious person can win one of them.

The automobile to be given at the end of the campaign represents the "400" in motordom. Engineers have striven for years to develop the prize car, making it the acme of elegance and service spending millions of dollars to perfect every detail.

ROOSEVELT NAMES TWO MEMBERS OF CABINET; START WORK AT ONCE

Cordell Hull and W. H. Woodin Selected; War Debts and World Economics Will Be Taken Up Immediately.

New York, Feb. 22.—Two tried and successful veterans in the fields of politics and business were announced Tuesday by President-Elect Roosevelt for his premier cabinet posts Senator Cordell Hull of Tennessee for secretar yof state and William H. Woodin of New York for secretary of the treasury.

The announcement came suddenly from the Roosevelt residence on East Sixty-Fifths treet after the president-elect had spent a swift moving day in internationala ffairs.

Impending developments in war debts and world economics impelled Mr. Roosevelt to make his announcement of these two councillors. They will go to work immediately with foreign envoys on the Roosevelt program to bring a revival of world trade and prosperity.

The formal announcement came through Marvin H. McIntyre, secretary to Roosevelt. It said:

"Mr. Roosevelt has announced that he has invited Cordell Hull of Tennessee to be secretary of state and William H. Woodin of Pennsylvania and New York to be secretary of the treasury, and they have accepted.

"In making the announcement of the first of his cabinet selections, Mr. Roosevelt made it plain that both these men virtually were drafted. Mr. Hull was reluctant to leave the senate. Mr. Woodin was loath to relinquish at this time the active control of the many industrial enterprises with which he has been so long and prominently identified."

Woodin was at the residence of Roosevelt just before the announcement was made public. The diminutive, gray-haired, genial man, who will take over the complex task of national finance, soon left for a dinner party.

TAKING THE CENSUS.

Taking of the scholastic census is to begin in Collin county next month, the work to be completed during March, we are informed by L. Dow Hendricks, county school superintendent, and his assistant, Malcolm Walters. The work will begin Wednesday, March 1, and will be completed by Saturday, April 1. Supplies for taking the census have already been received by the county superintendent, which is being given out to representatives of all common school districts. Stress is being given all enumerators in county common and independent districts to enumerate every child in the county, since the school districts will lose state support for every child not accounted for in the census. Of course, it is imperative that parents and guardians co-operate with the census enumerators 100 per cent. There are approximately 13,000 children of scholastic age in the county, Supt. Hendricks points out.

FINE OFFICIALS.

Collin county has reason to [illegible] of the state aid, recommended for fifty-seven of our common and independent school districts, following a visit here of State Aid Inspector G. D. Holbrook. He recommended, as you will remember, more than $27,000 aid for our schools. This is more than many other counties around us will receive, we are informed. To receive aid, schools must adhere to strict conditions, laid down by the state, and depending upon equipment, number of teachers and pupils and other important items. These schools are grateful, especially to County School Superintendent L. Dow Hendricks and his assistant, Malcolm Walters, for helping them attain goals whereby they would be eligible to get aid. Prof. Hendricks and Mr. Walters are two faithful, competent and painstaking county servants, who work energetically, not only throughout the day, but who may be often found late at night busy at work at their office. Collin county has no more efficient and worthy public official than Supt. Hendricks and it is a credit to us to boast of having such a man at the helm of our county educational system. Whenever you're over at the courthouse, drop by the county superintendent's office and give these folks a pat on the back to let them know you appreciate their services. The same advice holds true for other city and county officials.

Ronnie Martin and family have returned home from a visit to his parents, Mr. and Mrs. W. H. Martin at Graham, Texas.

Mrs. Tomer Dowell and Mr. and Mrs. W. H. Potter attended the funeral of their cousin, Sam Potter in Sherman Tuesday.

CONSTIPATION

If you are troubled with constipation—the chief cause of nearly all other common ailments—you will be glad to hear of the natural relief that Crazy Water has given to thousands of others.

Constipation must be corrected if a worse condition is to be avoided. There is just one way to restore the body to normal good health—that is to let Nature have a chance. Poisons that collect in the digestive tract must be eliminated before Nature can do her work. That is why Crazy Water is so effective in relieving constipation. It literally washes the poisons away.

TEXAS DELEGATION OF MASONS AT WASHINGTON, D. C.

Judge Wallace Hughston of McKinney, Grand Master of the Most Worshipful Grand Masonic lodge of Texas, headed a party of prominent Lone Star Masons last week on a trip to the national capital to attend the conference of Grand Masters from the various states of the union which convened there Feb. 20. This delegation of Texas Masons will also attend the annual meeting of the George Washington Memorial association in Alexandria, Va., near Washington, D. C., on Wednesday, Feb. 22.

The Masons of the United States have erected a Masonic Memorial temple at the top of Shooter's Hill at Alexandria on the spot on which the first Masonic lodge room stood of the home lodge of George Washingtn, "Father of His Cuntry" and first president of the United States. Washington was the first Worshipful Master of the lodge at Alexandria.

Among the Texas delegation of leading Masons attending with grand master, are Past Grand Master Sam P. Cochran and Judge Hiram F. Lovely, both of Dallas; W. Henry Watson, district deputy grand master, of Dallas and Wilbur Keith, executive secretary of the committee on Masonic education and service of Dallas.

The Washington memorial was dedicated last year on the Bi-Centennial of George Washington's birth. It is a beautiful structure of granite to cost several million dollars. It is being built in sections and when completed, will be the most imposing masonic temple and museum in the world where Masons from every part of the globe may go to see the George Washington museum room and see for themselves the interest that Washington took in his Masonry as reflected in these priceless relics.

Recently, Robert S. Barrett of Alexandria, visited the grand jurisdiction of Texas. While in the state, he came to McKinney to visit Judge Hughston to confer with him concerning the annual celebration now in progress at the national capital and at Alexandria.

Our readers will remember that Judge Hughston attended the Bi-Centennial Washington celebration and dedication at Alexandria, last year, being then deputy grand master of this state and as such performed his duties in the first grand lodge communication to be convened in the magnificent new Washington Memorial temple. This honor was conferred upon the Texas Grand lodge then was followed for two or three days by convocations of the grand lodges of the union.

CITY PAYS OFF $3,500 MUNICIPAL BONDS MONDAY

Monday, the City of McKinney paid off a total of $3,500 worth of municipal bonds—$1,000 in Market Square bonds and $2,500 Hospital bond issue.

During their present administration Mayor Perkins and City Commissioners Bryan and Brockman have liquidated a total city indebtedness of $64,250 and during the same period reduced the city tax rate 10 cents on the hundred dollars.

This is an unusual showing considering the decline in taxable values of every kind and everywhere due to the prevailing depression and general, world-wide deflation.

This remarkable showing is due to a combination of instituting various municipal economics and to constant vigilance and capable, faithful management of city affairs in general.

During the past, more than three years of deflation, depression and unemployment, the rule has been rather general among individuals, firms and governmental bodies everywhere to default or defer payment of maturing indebtedness and some even finding themselves unable to pay even their interest charges.

Not so, however, with McKinney, which is regularly paying off its bonded indebtedness as it matures and also meeting its other obligations promptly as they come due. Therefore, the City Commission, composed of Mayor Perkins and Commissioners Bryan and Brockman, are deserving of the hearty commendation that they are getting for the efficient administration of municipal affairs that they are giving the taxpayers of our splendid little city.

On Sunday, Feb. 12, at Dallas, Miss Inez Derryberry became the bride of Lawrence E. Wood of Fort Davis, Texas. Mr. and Mrs. Wood are now at home in Fort Davis. The bride is well-known to many friends in McKinney and throughout Collin county with whom she came in contact during her five-year term of service as home demonstration agent of Grayson county. She resigned her position in the extension service at Grayson county in 1931 to become yard specialist in the extension service of the Texas A. & M. college. She is a daughter of H. M. Derryberry of Decatur, Texas, having been born at Rhome. She finished her high school training at Boyd and is a former student of the Decatur Baptist college and also of the North Texas State Teachers' college at Denton.

TEXAS GRAND LODGE HONORED AT WASHINGTON

(Dallas News Special)

Washington, Feb. 20.—The annual conference of grand masters of the Masonic jurisdictions of the United States convened in the New Willard Hotel Monday. The Grand Lodge of Texas was honored by the election of Grand Master Wallace Hughston of McKinney as chairman of the present conference which concluded with a banquet at the Willard.

Mr. Hughston arrived in Washington Sunday accompanied by a delegation of Masons, grand lodge officers and past grand masters. Included were W. S. Cooke, Ft. Worth, deputy grand master; J. H. Crooker, Houston, grand senior warden; W. M. Fly, Gonzales, past grand master; Judge Hiram F. Lively, Dallas, past grand master; W. B. Pearson, Waco; grand secretary; W. H. Watson, Dallas, district deputy grand master; Roy Keeling, Galveston, district deputy grand master, and Galloway Calhoun, Tyler, member of the committee on Grievances and appeals.

Grand Master Hughston was placed in nomination for chairman by Ernest C. Butler, grand master of Maine, and was elected by acclamation.

◆ ◆ ◆

Texas Is Honored.

The Grand Lodge of Texas will be signally honored at the various meetings in Washington and Alexandria during the week. In addition to having furnished the chairman for the grand master conference, J. H. Crooker of Houston, grand senior warden, will be one of the principal speakers before the annual meeting of the George Washington Masonic National Memorial Association which will meet in the Washington Memorial Temple at Alexandria, Tuesday. Past Grand Master Johnson of New York, present grand secretary of the New York grand lodge, has invited the Texas Masons to visit New York and be the guests of the grand lodge at luncheon Friday.

◆ ◆ ◆

Subjects Discussed.

The principal subjects under discussion Monday had to do with the financing of lodge buildings, collection can be taken by the conference, general policies concerning the operation of a grand lodge. No legal action can be taken by the Conference, all its deliberations being in the form of an exchange of ideas and suggestions. Another subject that received particular attention was the problem of interjurisdictional relief. Walter Stockwell, grand secretary of North Dakota, and Grand Secretary Melvin Johnson of New York speaking on the subject. Judge Lively, chairman of the Texas grand lodge committee on purposes and policies, was on the afternoon program when the subject of lodge financing was under discussion.

The conference adjourned at 11:30, and the forty-one (states) grand jurisdictions represented by grand masters and other grand officers visited the White House where President Hoover posed in the center of the group beside Hughston.

The Alexandria lodge will hold a stated meeting on Wednesday night and the Texas grand lodge party will attend in a body.

Sam Horton, who operates a meat market at the Jess Burton grocery in this city, installed a modern meat counter, which is especially attractive, modern and up-to-date in every respect. He is doing this to keep up with the times. Mr. Horton, who is a progressive, forward-looking business man, tells us that he has a fine herd of white-faced cattle grazing on the old picnic grounds, which he expects to make good beef cattle.

W. P. HARPER, NATIVE OF COLLIN COUNTY, DIES

W. P. (Pat) Harper, a native of this county, being born in Wylie, July 2, 1874, died in St. Vincent's Hospital, Sherman, last (Tuesday) morning at 5 a. m. of heart trouble, where he had been confined for several days.

Mr. Harper formerly resided in McKinney, prior to moving to Woodlake a few years ago. For twenty-two years, he was a motorman on the interurban railway from Denison to Dallas.

His funeral took place in Sherman Wednesday afternoon at 2:30. Burial at Shannon cemetery, northeast of Sherman.

Pallbearers: C. O. Scott, R. P. Hunter, George Garrett, George Meadow, H. G. Floyd, E. S. Burdett, Carl D. Henry, C. A. Huguley.

Honorary pallbearers: All employes of the interurban company.

The Sherman Democrat of last Tuesday had the following in regard to Mr. Harper's death:

"Mr. Harper was born in Wylie, Texas, July 2, 1874, the son of Mr. and Mrs. R. J. Harper. He began his street work in 1893 at Fort Worth, accepting a position as he was on his way home from the old Thorp Springs college, where he had attended school.

In 1896 Mr. Harper accepted a position with the street car lines at Galveston, where he worked for 14 years. He had been in the service of the Texas Electric railway for 22 years, coming first to McKinney in 1910 and to Sherman in 1917, when the company was known as the Texas Traction company.

Both because of his long association with the company and his genial Irish disposition, he was widely known to employes and patrons of the electric railway company and their families and to many others as "Pat." A few years ago he was injured in a wreck and was a patient at a local hospital for several days, and there were numerous callers to see him daily and his room was filled with flowers as long as he was there.

During his residence at Galveston, Mr. Harper married Miss Emma Mae McClain of that city, Oct. 11, 1898, and to this union 11 children were born, all of whom are living except one. They are L. G. Harper, Farmersville; W. E. Harper, Dallas; Ralph and Tommie Harper, who reside at home; Mrs. C. M. Baker, Mrs. John A. Bush, Mesquite; Mrs. Hugh Garrett, Miss Dorothy Harper, Dallas, and Frances and Emma Harper, at home.

Mr. Harper is survived also by four brothers, including J. E. Harper, assistant fire chief of Dallas; R. B. Harper, Rio Grande valley, and Ben and Elmer Harper, Greenville.

He was a member of the Walnut Street Church of Christ and an ex-member of the Woodmen of the World and Knights of Pythias."

Mrs. A. J. Carrell, who lives on the farm about six miles west of McKinney while in town yesterday, informed us that her husband is getting along nicely. Mr. Carrell has been a patient in the Carlsbad sanitarium, near San Angelo, for several months. Andy is one of the best farmers that we know of and we hope that his health will soon be fully restored again. He is honest, industrious and a fine citizen in every way.

Mrs. Hester Combs gave her mother, Mrs. Henrietta Housewright, a surprise birthday dinner at her home in Wylie. The following children were present: Mr. and Mrs. Chas. E. Housewright, Mr. and Mrs. Dick Anderhub and Mr. and Mrs. Combs.

CABINET LIST IS COMPLETED BY ROOSEVELT

TRIO REPUBLICANS WILL HELP RUN AFFAIRS OF NATION

Washington, Feb. 23.—Heralding the imminence of a new administration, it was authentically revealed Wednesday that President-Elect Roosevelt had just completed a cabinet of national pattern and turned to other major appointments.

Barring an unexpected shift at the last minute, three of those to sit around the White House council table with the next chief executive will be from the east, three from the south, two from the west.

Of the ten but one name has remained a secret until now—that of Daniel C. Roper of South Carolina, as secretary of commerce.

Homer Cummings of Connecticut, is understood to be slated for governor-general of the Philippines; putting at rest reports that Mr. Roosevelt intended to leave in that high post, for the time being at least, his distant erlative, Theodore Roosevelt, Jr.

◆ ◆ ◆

Personnel of Cabinet.

Although only the first two of the ten have been formally announced, the cabinet set-up is accepted in Washington to be:

State—Cordell Hull of Tennessee.

Treasury—William H. Woodin of Pennsylvania and New York.

War—George H. Dern of Utah.

Justice—Thomas J. Walsh of Montana.

Postoffice—James A. Farley of New York.

Navy—Claude A. Swanson of Virginia.

Interior—Harold Ickes of Illinois.

Agriculture—Henry A. Wallace of Iowa.

Commerce—Daniel C. Roper of South Carolina.

Labor—Miss Frances Perkins of New York.

◆ ◆ ◆

Three Former Republicans.

One of the angles to attract immediate attention on Capitol hill was the political division of that list. Woodin and Ickes in last years having been identified in Republican causes and Wallace being a son of the secretary of agriculture in the Harding administration.

The Ickes selection especially was regarded as apt to please the Independent Republican faction which supported Roosevelt against Hoover. He has been allied with Senator Hiram Johnson (Rep.), California, and was described in interested quarters Wednesday as "seeing eye to eye with Roosevelt on power."

On a stop-off here en route to his home from New York he visited with Senator Johnson but refused comment as to his election. The senator said it would be an excellent one.

SEARCHING FOR PERSON WHO SENT ROOSEVELT BOMB

PACKAGE WAS MAILED AT WATERTOWN, NEW YORK

Washington, Feb. 23.—Armed with few clues, federal agencies Wednesday night were tracking an unknown would-be assassin who directed an explosive to President-Elect Roosevelt here.

In the hands of the secret service and postal inspection service was a crudely made apparatus—dangerous if improperly handled.

Addressed to "Franklin R. Roosevelt, Washington, D. C.," it was seized in the Washington postoffice as it was loosened from a sack of mail and burst its wrappings. It was postmarked at Watertown, N. Y.

The trail of the sender was sought there.

The explosive consisted of a shotgun shell, with wiring shaped as a "J" over the cap. Postal authorities estimated it had one chance in ten of ever exploding, and then only by being dropped in a perpendicular position. Ordnance officers of the navy department, who usually are charged with destruction of such packages after other agencies have completed their investigation, expressed doubt that fatal injuries could have resulted from an explosion of the shell.

VICTIM OF AUTO CRASH BURIED AT FARMERSVILLE

J. PRENTICE AYCOCK MET TRAGIC DEATH AT BROWNSVILLE

Funeral services for J. Prentice Aycock, 39, who was killed near Brownsville Monday afternoon in an automobile accident, were held at the Farmersville Methodist church Wednesday afternoon at 2:30 o'clock. Services were conducted by Rev. Chas. Thomas, pastor of the Methodist church of which the deceased was a member and by Rev. Oliphant, pastor of the Church of Christ. Burial followed in the Odd Fellows' cemetery at Farmersville under the direction of the Perry Funeral home of that city.

The deceased and Joe Carver, also of Farmersville, were in Brownsville for the purpose of buying onion plants. With them in the car was a Mr. Green of Raymondville, an onion dealer. According to bystanders, Mr. Aycock, driver of the car, lost control of the machine which swerved off the road and plunged headlong into the embankment at the side of the highway. Mr. Aycock met death almost instantly, when his chest was crushed. Mr. Carver is in a hospital in Brownsville suffering from a fractured leg and other injuries. He is expected to recover, although his injuries are painful.

J. P. Aycock was a son of Mr. and Mrs. A. S. J. Aycock, of Farmersville, who survive. He is also survived by his wife, one son and daughter, Joe and Jean, both at home, and by several brothers and sisters.

NATIVE OF VERONA PASSES AWAY AT HOME IN DENTON

JOHN WELLS WAS DAIRYMAN IN DENTON 12 YEARS

John Wells, a native of Verona, twelve miles northeast of McKinney, in this county, died at his home on Malone street in Denton at 1:40 o'clock Wednesday morning, Feb. 22.

His body is being held pending arrival of two daughters.

The deceased was born at Verona Oct. 4, 1872, the son of A. J. and Nancy Jane (Vance) Wells. He was, therefore, at the time of his death 60 years old.

His father was a native of North Carolina, while his mother was born in Slate Springs, Miss. He was married to Miss Leora Joanna Haskin, Nov. 17, 1895, at Climax. To this union were born four children, as follows: Mrs. Juanita Willis of Dallas; Miss Nancy M. Wells of Fernandina, Florida; Miss Leora Joanna Wells of Harlin, Ky., and J. Haskin Wells of Denton.

In 1918, he moved with his family to Denton, where they had since resided. He had been in the dairy business there for twelve years. He was well educated and a member of the Church of Christ, in which he was a deacon.

You are paying for good light. Are you getting it? Only if you use good lamps. A poor lamp consumes just as much electricity as a good lamp, but does not give as much light. A poor lamp is a worn-out lamp, an obsolete lamp, or an inferior grade lamp.

Check up on the light in your home—count the empty sockets—decide now to fill them and to replace dim and worn-out lamps with good ones. And when purchasing lamp bulbs demand standard quality.

You may purchase standard quality lamp bulbs from any good dealer, or from our store.

His burial took place Monday at Covington. Ex-Sheriff W. A. Kerby and wife of McKinney attended the funeral.

The deceased and family lived in McKinney for several years, during which time he engaged in the life insurance business. They moved to Sherman eight or nine years ago, later moving to West Texas and then back to Dallas, where his sudden demise took place.

FIRE DAMAGES THREE M'KINNEY RENT HOUSES

Fire, about midnight Monday night, destroyed or badly damaged three rent houses located in the northwestern part of McKinney on West White street.

They were occupied by the G. H. White, Charlie Darling and Mrs. J. L. Blakey families. Two of the houses were practically total losses, while the third was considerably damaged. Household effects of one house were partially saved, while those of another were more or less damaged and of the other one sustained only minor damage due to the good work of neighbors and the efficient local fire department under Chief Johnny McKinney, which promptly responded.

The location of the fire was about one mile from the fire station, but the department as usual made a quick run and gave a good account of itself after arriving at the scene of conflagration.

Two of the houses were owned by Mrs. Alice Duvon of McAllen, Texas. They were occupied by the White and Blakey families. We did not learn the owner of the third building. The losses were only partially covered by insurance.

◆ ◆ ◆

Fire which broke out in the front room of the house occupied by Mrs. J. T. Welch, 910 East Anthony street about 7:30 p. m. Monday night, did very little damage. The fire department was on hand quickly and extinguished the blaze before it had spread.

ALLEN G. BRYANT FORMER COUNTY OFFICIAL DIES

Allen G. Bryant, aged 66 years, 9 months and 5 days, died Saturday night, Feb. 18, at 8 o'clock at the home of his brother, Dr. W. C. Bryant, in Anna. Funeral services were held at Anna at 2:30 o'clock Sunday afternoon, Feb. 19, conducted by Rev. R. B. Evans, pastor of the Presbyterian church at Prosper, assisted by Revs. R. L. Bonner, Roy Anderson and Thos. Sterck, all of Anna. Interment followed at 4 o'clock Sunday afternoon in Pecan Grove cemetery at McKinney in the presence of a large concourse of relatives and friends.

Active pallbearers were James Bryant, Joe Bryant, Billy Bryant, Roy Adams, Mr. Hendricks, all of Anna, and Will Bryant of Prosper.

Allen G. Bryant was born May 13, 1866 six miles west of Newport, Cooke County, Tennessee, being a son of Mr. and Mrs. W. C. Bryant, Sr., a highly-esteemed old Tennessee couple, who came to Texas in their latter years to be near their children, both passing away, west of McKinney, and being buried in Pecan Grove cemetery.

At the age of 16, Allen G. Bryant professed faith in Christ and united with the Big Pigeon Primitive Baptist church of his community. At the age of 18, he was placed in charge of the county clerk's office of his home county and at the end of the year was elected county recorder, a position to which he was re-elected several times. During his first term, he was united in marriage to Miss Minnie Robinson, of Newport, Tenn. To this union, one son, Don Bryant, was born and still survives, but the young wife and mother passed away soon after the birth of their child.

The deceased came to Texas a number of years ago from Newport, Tenn., and made his home in Collin county during the remainder of his life. He engaged in farming near Prosper. He was a hard-working farmer who had inherent love for purebred livestock and especially of registered Jersey cattle, owning some of the best bred animals of that breed this county has ever had. He was a frequent exhibitor at the Collin County fair, at McKinney, and at the state fair at Dallas. Mr. Bryant was a man of much above the ordinary level of intelligence and general information gleaned from constant reading of books, magazines and newspapers. He was a man of genial impulses, an excellent conversationalist and a boon companion who loved his friends and enjoyed contact with his fellow man. Mr. Bryant had a noble heart in his breast, which beat constantly for his fellow man in their struggles and adversity. He enjoyed trying to spread a little sunshine as he passed along the way in the lives of other people and always found pleasure in their success and happiness in life.

This editor knew him intimately for many years and prized his genial friendship very highly. With his many other friends, who knew him intimately in both Tennessee and Texas, we mingle our tears with those of his surviving loved ones and shall treasure his warm-hearted friendship and amiable attitude among the pleasant memories of life along the balance of our days whether they be few or many.

Besides his only child, Don Bryant, a West Collin farmer, the deceased is survived by two sisters, Mrs. Ida Henson of Van Alstyne, and Mrs. Tom Cole of Denton, and by four brothers—Dr. A. T. Bryant, a retired McKinney physician and surgeon; Dr. Tilman H. Bryant, a prominent dentist of McKinney; Dr. W. C. Bryant, a prominent North Collin physician and surgeon at Anna, at whose home he died, and James L. Bryant, a West Collin farmer of near Prosper.

Mr. and Mrs. Charlie Cook of Dallas were Sunday guests of Mr. Cook's parents, Mr. and Mrs. S. F. (Bet) Cook and other relatives in our city. Charlie and Lee Cook, former county commissioner, are brothers. Charlie has lived in Dallas for several years, and is still engaged in the stock business, spending most of his time at the Fort Worth stockyards.

Strickling and Claude Francis. Manager Leo Crockett was also honored with a letter.

There were thirty present at the enjoyable occasion Friday night. After a sumptuous supper, Prof. W. R. Hollis, coach of the Lions, announced the lettermen and captains and thanked the boys for their co-operation during the season, which he termed "successful despite the several losses on the record."

Those present were: Capt. James Kimbriel and Foy Terry, Sam Forshee and Glenda Perry, Carroll Adair and Nell Pollard; Norman Scott and Latane Boyer, Cecil Adair and Robert Forte, Cloyd Giles and Mary Edna Graves, Edwin Thomas and Katie Cundiff, John Robert Brownlee and Ruby Lee Cantrell, Harry Duane Morgan and Pauleen Joplin, Bill Thompson and Martha Bea Houston, Fred Dickinson and Robbie Hayes, Jerry B. Strickling and Annie Ruth Furr, Bud Milraney and Frieda Acuff, Vester Justice, Joe Gribble, Claude Francis and Coach W. R. Hollis.

DOESN'T THINK SMALL GRAIN KILLED BY FREEZE

W. C. Dysart, farmer living ten miles north of McKinney, is of the opinion that the recent zero weather and freezes didn't kill small grain. He says that while it is true that the blades of wheat, fall sown oats and barley look dead and burnt in appearance yet examination has revealed to him that the root and the bud have not been killed to any great extent. Rye stands cold better than any other small grain and notwithstanding the severe freeze is still green.

Mr. Dysart says that a recent letter from his son, Lester Dysart, an extensive wheat farmer of Wildorado, Oldham county, thirty-five miles west of Amarillo, states that his wheat out there has not been blown out of the ground so badly as some of his neighbors and other wheat growers in that northwest section of the state. He doesn't know whether the freeze has done any great damage or not to his crop.

There seems to be a division of opinion concerning the extent of the damage to small grain by the recent zero weather. Some think that part of the fall sown oats will have to be sown over. Some spring oats had been sown before the freeze. Where these were up, they were possibly killed and will have to be sown over.

DEMANDS IGNORED JAPAN PLANS A DRIVE ON JEHOL

Chinchow, Manchuria, Feb. 20.—The most convincing indications were seen Sunday that this week will witness the beginning of the long-heralded Japanese and Manchukuoan assault on the Chinese province of Jehol and the opening of the most intensive international conflict the Orient has seen since the Russo-Japanese war of 1905.

With the fanfare of preliminary threats and ultimatums nearly over, the preparations of Gen. Nubuyoshi Muto, Japanese commander in chief in Manchuria, were near completion. Lieut. Gen. Kunaiki Koiso, chief of staff for General Muto, was said to be the directing genius of the expedition.

M'KINNEY 25 Years Ago

From The Files of The Daily Courier-Gazette

(Feb. 19, 1908).

Yesterday's issue of this paper has a lengthy biographical sketch of C. A. (Uncle Allen) McMillen of near Murphy. For sixty-two years he has been a citizen of Collin county, seventy-five years a Presbyterian and a Democrat and now in his ninety-first year he is hale and hearty. He was born in Araknsas, Jan. 29, 1818. He married Miss Lydia Maxwell in 1841. She was the daughter of John Maxwell, a soldier of the War of 1812. In 1845, Uncle Allen came to Jack McGarrah's camp or store, about three miles slightly north of west from the present McKinney courthouse. That was a year before Collin county was created and before McGarrah's place became known as Buckner, the first county seat of Collin county.

This paper contained another write-up yesterday of "Grandpa" William Murphy of Murphy, this county, who was born in North Carolina, May 27, 1816, and hence is 92 years old. In 1841, he married Miss Dorothy Hudiburgh of Indiana. They came to Texas in 1852. She died at Murphy, Jan. 11, 1899. Grandpa Murphy is the father of Mrs. J. L. Moulden.

Dr. J. F. Butler, Democratic wheelhorse of Wylie, dropped in to renew his subscription today.

THURSDAY, FEBRUARY 23, 1933.

Trade at home and save the difference.

This is a fine county to practice diversification during 1933. The "cow, sow and hen" philosophy will certainly come in handy this year.

The street paving and other good work, being done by Mayor Perkins and Commissioners Byran and Brockman, will be a great relief to the people. Keep it, up gentlemen. Mighty good work.

Eight Texas life insurance companies have agreed to suspend foreclosures on Texas homesteads, both rural and urban, during 1933. Their signed agreement was read before the Texas legislature on February 9.

There is no telling what a word of encouragement will do for the other fellow. Every man can call to mind instances when an encouraging word has given him a fresh grip on things and has done him more good than the one who gave it ever guessed that it would.

Paving is going on in every section of the city, as well as street cleaning and repairing and clearing our already paved streets. This is mighty fine work, Mayor Perkins and Commissioners Byran and Brockman. Keep it up. You are giving lots of work to laborers, who actually need it, and the people of McKinney have been in the "mud" long enough.

We see by the McKinney Daily Courier-Gazette, edited by Tom W. Perkins and Walter B. Wilson, that Collin county has raised approximately $250 for the Salvation Army. The Salvation Army is doing a good work in the larger cities of the country and deserves the support of all who can afford to contribute.—Sherman Democrat.

We notice in the Sherman Democrat that good looks and kitchen talent are chief requisites for the "perfect mate" out at Stanford university. A survey among the students revealed that they wanted beauty first, cooking second, intellect third, while one girl wanted a man who can cook. And, to cap the climax, another asked for "an angel with a devil's smile."

We don't know, but we imagine Uncle Samuel will turn thumbs down on England's proposal to pay the United States its war debt in one lump sum. The reason: They propose payment of less than 10 per cent of the debt they owe this country. They propose payment of a sum between $1,250,000,000 to $2,000,000,000 in payment for the $11,000,000,000 they owe this nation.

Farm wages, at the beginning of the New Year, checked down the lowest in thirty-four years, according to the United States Department of Agriculture. This governmental department also reports that farm wages declined faster last year than industrial wages. The former declined twenty-one per cent as compared to a drop of only ten per cent in industrial wages.

In these times of cheap corn and cheap hogs, Collin farmers should provide themselves with a better standard of swine for breeding purposes. Hog prices are sure to be better at no distant time in the future, and, the better the breed of your hogs, the more capable they are of bringing you in better returns, both when you sell them or when you slaughter them on your own farm.

Melissa is making good use of the Reconstruction Finance Corporation Direct Federal Aid to unemployment relief by having her streets improved and other allowable work done with these timely funds. E. O. Knox, prominent local business man there, is president of the local Relief Committee, whose other members are J. A. Lacy, Clyde Robinson and H. S. Wysong. Melissa people are doing their best for the relief of the unemployed and needy during the economic stringency that our country has been experiencing now for more than three years.

HENRY FORD'S SENSIBLE REASONS.

Why I believe in prohibition? I believe in prohibition because I believe in the new industrial order that America is creating. Booze is as much out of place in that new order as a horse and buggy in downtown Detroit—and a lot more dangerous.

The horse and buggy order is gone and liquor had to go with it. Society could take chances back of a dashboard that it can't afford to take behind a steering wheel.

Perhaps you don't recall the old hitching post days. Well, a lot of folks seem to have forgotten them. They shouldn't. The streets on Saturday nights were lined with wagons and buggies and the saloons were filled with customers. At closing time a crowd of irresponsible men backed their rigs into the street, the horses were headed toward home, the reins dropped over the dash and forgotten. The horses were sober.

Well, if we want our streets lined again with shops that do that kind of business we shall have to put up our automobiles and go back to hitching posts. Automobiles don't go straight unless they are driven straight, and they don't know the way home.

An industrial order that has discarded the reins, dashboards and team-that-knows-the-way-home can't afford to line its highways with "regulated liquor shops"—not with forty-horse-power motor under the toe of the drinking driver.—Henry Ford, in the Lincoln Journal.

DEBTS ARE A HUGE BURDEN.

"Total farm debt of the United States is variously estimated at from thirteen billion dollars to fourteen billion dollars. The carrying charges on a debt of this size represent a very real burden which must be paid out of current earnings.

"A higher price level is one way in which these burdens can be lightened. A material increase in the price level is not likely to occur in the near future without artificial stimulation in some ways. Clearly, then, controlled inflation would be one means of bringing relief to farmers, although it would by no means solve all their difficulties. It should merit honest consideration by those interested in farm relief. One thing seems apparent—a recovery in agricultural purchasing power is absolutely essential and would go a long way in bringing the country out of the present depression."—L. S. Ellis, Oklahoma A. and M. college.

FOR SUBSCRIPTIONS ONLY.

The automobile prize campaign now being conducted by the Daily Courier-Gazette and Weekly Democrat-Gazette is for the sole and only purpose of adding to our already large subscription lists. The campaign was planned and is being conducted, not with the idea of making money, but in order that increased service may be rendered our advertisers by these papers.

Subscriptions and SUBSCRIPTIONS ALONE, along with coupon votes and extra vote offers as announced in the Daily Courier-Gazette and Weekly Democrat-Gazette, will count in the vote totals upon which the award of prizes will be made at the close of the campaign.

No votes whatever will be given for any job printing or advertising sold, nor for the collection of any accounts. The candidate who works hardest and thus secures the largest number of votes will be the one who comes out on top when the final vote is counted.

"NO INCOMES NOW TO TAX."

Former Governor James E. Ferguson has taxation views of his own. In a conference with Texas newspaper men he declared that "if the currency is inflated it will put things back level with the time the law was made." He advised that the money would be issued by the government without bonds, says the Mineral Wells Index. He said, "The promise of Uncle Sam is good enough," and stressed that if the money is backed by bonds it just means that much more interest. Then it was he coined a new phrase for literature of the day. "I had rather have fiat money and eat than gold money and starve." Speaking of tax measures, he is said to have expressed opposition to the income tax, giving as a reason "there are no incomes now to tax." As for the sales tax he is for it first, last, and all the time. His argument: "The poor man who has a large family would get back many times his taxes by the per capita school apportionment and free textbooks for his children. The poor man is patriotic and has a large family. The rich man who does not have a family ought to pay more." According to the newspaper accounts of the interview, the former governor indicated he would participate in legislative discussions of the proposed tax bill. As for inflation, he very bluntly said, "I want to inflate just as much as they have deflated. We have been legally and officially hi-jacked by the deflators."

HELPING FIND THEM JOBS.

A farmer near Melissa left a call at the Chamber of Commerce recently for 120 men to set out onion slips. The notice appeared in last Thursday's Daily Courier-Gazette. On Friday morning, says the McKinney Examiner, the Chamber of Commerce was visited by a large number of men seeking the jobs. Trucks were ready to convey the men to their jobs which brought them good pay, better than the R. F. C. relief wage being paid here. All who went to the new jobs thus left that much more money to be paid out here to others or to themselves, later.

T. E. Craig, county chairman of the R. F. C. unemployment relief measures here is delighted with the fine spirit being shown by the McKinney Chamber of Commerce in relieving the individuals by helping them to be placed where they are most needed. It is said an average of 175 people go to the Chamber of Commerce every morning in quest of work or to receive assignments for the day. Truck loads of men are to be seen leaving early every morning for the points where this relief work is being done. We wonder what would have happened if Congress had not provided these millions of dollars for the relief of the needy, distressed and oppressed people.

And don't forget that the men who are directing this local work are receiving no pay directly for the time and efforts they are putting forth. Their work is one of love and sympathy for their fellow men.

Work is now going ahead at Finch Park, Pecan Grove cemetery, the Fitzhugh Newsome Athletic Park, several streets in McKinney and on roads leading in to and from the city, within our district.

SALES TAX EQUITABLE AND EASY TO PAY.

C. L. Brownell, a Texas farmer, gives his ideas on the Sales Tax in lieu of the present unjust advalorem tax burden on property, in the following pointed way:

There is a great howl about taxes hurting the man least able to pay. Since I was in Mississippi I am for the sales tax to enable property owners to get some relief from taxes. Take it off land and put it on merchandise.

The Mississippi Negroes are helping to pay for the government now. Before they had the benefit of government and never paid a cent. They say the poor man can't afford to pay. Does the Negro in Mississippi ever miss the 1 cent or 2 cents he pays? Never!

The price of all basic commodities is now so low that a 2 per cent sales tax is insignificant. The ordinary laborer or farmer tenant will not spend over $250 a year, which means he will pay not over $5 in taxes. With the farms and other real estate relieved of their burdens, don't you think that enough additional money would start back into trade and commerce to make this $5 easier to pay?

I have never been rich so this soak the rich doesn't affect me, but I am confident that we have been trying this game for all these years, and while we have been trying to sock the rich the rest of us are about knocked out.

The gasoline tax is a success. Everyone claims it to be the most equitable tax ever devised. Yet, it is a sales tax on a commodity that every one uses. If a general sales tax hits the man least able to pay, why do we collect it from the poor fellow with his 1919 flivver who sold a dozen of eggs to buy gasoline to get back home in the flivver. He doesn't kick about the tax on gas. He won't kick about the I cent he pays on a sack of flour because gasoline is now cheaper than ever known and so is flour and everything he has to buy.

The sales tax is equitable and if the state and government will forget politics and get down to real economy in government, we will all be glad to pay a general sales tax to balance the budgets and relieve real estate burdens. Personally, it will cost me many times more but nevertheless I am for it because I believe it will help general conditions and hasten prosperity.

TODAY

I will start today serenely
 With true and noble aim;
I will give unselfish service
 To enrich another's name.

I will speak a word of courage
 To a soul enslaved by fear;
I will dissipate the drab discord
 With the sunshine of good cheer.

I will be sincere and humble
 In the work I have to do;
I will praise instead of censure
 And see the good in you.

I will keep my mind and body
 Sound and flexible and pure;
I will give my time and study
 To the things that long endure.

I will do what I am able
 To advance a worthy cause;
I will strive to lessen evil
 And obey God's righteous laws.

I will pray to Him to guide me
 In the straight and narrow way;
I will shun false pride and folly,
 I will live my best today.

FROM THE FILES OF THE DAILY COURIER-GAZETTE

Editor J. L. Harper of the Frisco Journal gave our office a fraternal call today. He says that his little city will vote on the proposition of being incorporated on March 3. He predicted that the proposition would overwhelmingly carry.

Dr. D. C. Combest of Prosper called at The Daily Courier-Gazette and Weekly Democrat-Gazette office today to announce a public auction of his household effects, Feb. 29. He is planning to leave March 5, for Spokane, State of Washington, to make his future home. The doctor located at Valdasta, this county, fifteen years ago, where he practiced three years, then practiced at Rock Hill for several years in partnership with Dr. W. R. Mathews.

County Superintendent of Public Schools W. L. Yarbrough has two daughters living on the Panama Canal Zone. One of them, Mrs. Verna McNeil, is the wife of an official of the government. His other daughter, Miss Grace Yarbrough, is teaching a primary school at a salary of $96 per month.

Mrs. T. A. Coleman of this city and Mrs. J. E. Gibson of Melissa went to Allen today to attend the wedding tonight of their brother, Walter Spradley, and Miss Mae Davis.

We had a welcome business call from three prominent Southeast Collin citizens—Aus Wilborn of Clear Lake and W. E. Bowen and B. T. Morgan, both of Culleoka.

J. L. Kirkland of Midland is here winding up some business matters. He recently moved to that part of West Texas for the benefit of his health.

Thanks to M. J. Box, Route 2, [illegible], who called to renew his Weekly Democrat-Gazette [illegible]

PUPILS OF MISS NINA THOMPSON GIVE PROGRAM

Several pupils of Miss Nina Thompson entertained members of the McKinney Lions' club Wednesday noon at their regular luncheon served in the dining hall of the First Methodist church. The delightful menu was served under the supervision of Mrs. W. C. Brooks and several ladies of the Social Workers.

R. C. Heathington and R. E. Gordon were the program committee for the day introducing the following youngsters, who presented a very entertaining program of readings and dances: Warren Hall, Jr., Goldie Mae Caldwell, Catherine Caldwell, Jane Brockman and Paula Katherine Smith. Miss Fannie Beard was accompanist at the piano. Miss Thompson was also a guest.

President Leo Spillman expressed the delight of the club in having such accomplished entertainers before them for the day.

HABEAS CORPUS HEARING HELD HERE THURSDAY

A habeas corpus hearing was held before Judge F. E. Wilcox in Fifty-Ninth District court Thursday for E. A. Hervel and Mark V. Packard, for the purpose of setting their bond. They are charged here with theft and swindling over $50.00.

The bond was set at $2,500 apiece and at press time Friday had not made bond, the two men being in jail.

The state was represented at the hearing by County Attorney W. C. Dowdy and his assistant, Leon O. Moses, while the defendants were represented by Ted Munroe, of Munroe & Hughes, law firm, Dallas.

The charge grew out of the alleged swindling of Lawrence Holcomb, Frisco railroad agent at Prosper, who reported he was swindled out of 300 shares of Cities Service Oil company stock about a month ago.

Prof. Jack Ryan and wife drove down to Centerville Friday afternoon to visit his sick mother, Mrs. J. T. Ryan who was recently stricken with paralysis. However, her condition was reported to be improving Friday.

A Frisco railway switch near the cold storage plant in the Frisco yards at Frisco was found open shortly after noon hour Monday. Fortunately, no trains passed while it was open. The discovery of the open switch was made by Joe Smith, who was doing some work for Frisco near the switch. He is an ex-railroader and naturally glaced at the switch as he passed by. His experienced eye detected it and he promptly notified the station. Special Frisco railroad detectives are working on the case.

NOTED TRAVELER TALKS TO TROOP 7 MEMBERS

Troop 7, McKinney Boy Scouts, met in regular session Thursday night in the Martin Moses building on the north side of the square. The troop is in charge of Tom Greer, scoutmaster, and Eugene Skelton, assistant scoutmaster. Leo Spillman, one of the best friends of scouting anywhere, who assists with the Troop 7 meetings, was also present, assisting with the fine program enjoyed.

Troop 7 has three patrols—the Beavers of which Harry Morgan is patrol leader; the Owls, headed by Aubrey Vaughn Hamilton, and the Flaming Arrows, with William Rhea as patrol leader.

Raymond Bridges is senior patrol leader.

The feature of the program was a splendid address by Dr. F. DeMills, a student of nature, traveler and gifted speaker. Dr. DeMills, who is 51 years of age, is an example of perfect, robust health. He has the vitality of a man twenty or thirty years his junior. He has traveled in many places, visiting eight foreign nations, including Australia, New Zealand, Canada, Mexico and Hawaii. He has visited in every state in the union.

Dr. DeMills was invited to speak to the boys and was introduced by Mr. Spillman. The subject of his interesting talk was "Yellowstone National park." He kept the seventeen scouts present deeply interested for an hour with a first-hand description of that famous national park. He has visited every national park in the country. He described the geysers, animals and the thousand and one other features of that internationally famous playground. He also gave a good description of the animals found there and told of some of his experiences.

The speaker concluded by stating that all study and talk of nature leads us to one conclusion; that is, that everything must have been created by an all-powerful one, the Lord and Master of us all.

Pictures were also exhibited by Dr. DeMills, concerning the famous park.

E. E. Hunter of Sherman has arrived in McKinney where he is in charge of the Municipal Gas company office. He will be here for two or three weeks, during the absence of the manager, W. W. Taylor, who was married Wednesday to Miss Anita Gross in Dallas. They are spending their honeymoon in Monterrey, Mexico, and will be back in two or three weeks.

The new Sinclair oil station being erected on Mrs. Laila Robinson's vacant lot, South Tennessee street, is going right along, and, weather permitting, will be ready for occupancy in some fifteen or twenty days. This will be one of the nicest and most up-to-date brick stations in this city when completed. Orin J. Moss, former county tax assessor, will have charge of the station when completed.

MANY FEDERAL JOBS IN TEXAS FOR DEMOCRATS

A full list of the available jobs from members of the President's Cabinet down to night watchmen, not under civil service, and running into the thousands, has been furnished each member of Congress in printed form. The list was prepared under a Senate resolution, and shows the station, the official title, date of appointment and salary. Each member of the Senate received two copies and each member of the House one copy. Extra copies may be purchased from the Government printing office for forty cents each, it was disclosed in the Senate debate.

The members are anxious to have a large number turned out from the Government printing office for general free distribution through the offices of members. In replying to prospective applicants for positions, members mentioned the list then in preparation, and some have as high as fifty requests for copies. The list does not include first, second and third-class postmasters which is to be issued in a separate edition.

◆ ◆ ◆

Many Good Jobs in Texas.

The list available Monday, however, shows upward of 2,500 jobs in Texas, including all branches of the Federal service. Texas has one place in the diplomatic service with the rank of Minister, assigned to Dublin, Irish Free State, at salary of $10,000 a year. There are twenty-one places in the foreign service, State Department, accredited to Texas, ranging from the first secretary of the Embassy at Paris and Consul General at Tientsin, China, each paying $8,000 a year, to the third secretary at Mexico City and Manakua, each paying $2,500 per year.

In the public health service there is a senior surgeon at Galveston, $8,500 a year, surgeons at Port Arthur, $3,500; Austin and Brownsville, $3,000 each and three assistant surgeons at Galveston, receiving $2,000 each.

Fourteen major positions, United States Attorneys, United States Marshals, Collectors of Customs, etc., are available for Democrats in Texas. In addition, there are about 1,700 miscellaneous positions available in Texas under all departments of the Government ranging from Assistant United States Attorneys, Treasury representatives, doctors in the Veterans' Burau, down to telephone operators and stenographers.

The extension service, Department of Agriculture, employs 128 in Texas at good salaries when the local and Federal salaries are combined. At twenty-seven different points in the State there are 125 labor positions which are filled without regard to labor regulations, while also in the state there are upwards of 800 positions filled in accordance with the labor regulations. Some of these positions pay as low as 50 cents an hour.

Among the positions available in Dallas are three in the Labor Department employment service. There are 168 in the crop production loan office, Department of Agriculture; ten in the Bureau of Agricultural Economics, eighteen Deputy United States Marshals, two Assistant United States Attorneys; fourteen, one of whom is an office boy receiving $480 a year, accredited to the Reconstruction Finance Corporation; fifty-eight deputy collectors in the internal revenue office, Federal Farm Loan officials and 200 doctors attached to the veterans' administration office in Dallas. Three of these doctors are on part time and the remainder on a fee basis.

Seventy-three positions are available in Austin, ninety-three in El Paso, 168 in Fort Worth, eighty-one in Galveston, ninety-six in Houston and 318 in San Antonio.

None of these positions is under civil service, and all may be changed if the administration so desires. As far is now known the intention is to put Democrats into all offices where practicable and possible. Many of the places in Texas are probably now filled by Democrats.

IMPROVEMENTS ARE MADE AT WILSON SCHOOL

Prof. Elbert Randles, principal of the Wilson school, seven miles east of McKinney, who was a McKinney business visitor one afternoon this week, states that they are making extensive improvements at his school and in his community.

The seventh grade reading class is putting out hackberry trees all along the school ground, making the premises more attractive. They are also planning to put out flowers and hedges this spring. Prof. Randles also announces that the road leading by the school is being rocked.

Mr. Randles says that plans for a student publication for the school are going forward. The equipment has already been purchased and they are now working on the first issue.

The same dollar you spend for face powder

Of course face powder is a necessity to most women—but so is natural gas service. When you take into consideration time, convenience and energy saved—natural gas gives you more dollar for dollar value than anything you can possibly buy. . .

MRS. (DR.) J. E. GIBSON.

MRS. J. E. GIBSON LAID TO REST HERE FRIDAY

Obsequies for Mrs. Florence Gibson, wife of the late Dr. J. E. Gibson, were held at her residence, 212 West Louisiana street Friday afternoon at 3 o'clock. Dr. C. M. Simpson, pastor of the First Methodist church, assisted by Dr. J. H. Cozad of the First Baptist church, gave tribute to the high character of the deceased and the love and esteem in which she was held. The services were impressive. Interment was made in Pecan Grove cemetery under direction of the Isaac Crouch Funeral home. Active pallbearers were Dr. Joe W. Largent, Roy Caldwell, Dr. J. C. Erwin, Sr., Dr. E. L. Burton, J. M. Foster, Sr., and Mayor Tom W. Perkins.

A large crowd of sorrowing friends and relatives attended the last rites of the deceased, who was well-known in McKinney and Collin county, where for more than fifty years she had been an outstanding leader in musical, religious and social circles. She had been in declining health the past few years, the past several weeks being critically ill.

She died at her family residence, corner of West Louisiana and South Church streets, this city, at 8:40 o'clock Thursday, February 16. Her condition had been extremely critical for the past several weeks and her demise was expected momentarily. She was 76 years, 6 months and 24 days old at death.

Native of Illinois.

Miss Florence Clementson was born July 22, 1856, at Marion, in Williamson County, Illinois, being the daughter of the late Col. John Clementson and Mary (Steed) Clementson. When a small child the family moved to Tennessee, where her father, who was a lawyer and a noted orator of his day, lived until after she was grown and married. She was favored with excellent academic and musical schooling advantages. Her natural talent for music was rapidly developed by superior training advantages under the best music teachers of her section of the state at that time. She became highly skilled as a pianist and also as a vocalist, turning her attention towards teaching, both voice and piano—more for the pure love derived from the art of music than from any other motive. For more than forty years she was recognized as one of the most gifted instructors in North Texas in her profession and many times the demand of pupils to enroll in her classes exceeded her physical power to teach them. For a number of years she was choir leader and organist of the First Methodist church at McKinney, with which she became identified fifty-three years ago. Her connection with any kind of a public program—church, theater, club or rendered at private homes was always featured as an outstanding attraction and was a drawing card for any occasion. For many years she was called upon frequently to provide music for funerals, weddings and on special church or literary programs and occasions of every kind. Scores of both men and women still living in our city, county and state owe her credit for their training in and love for music, both vocal and instrumental, and whose tears will mingle with those of surviving loved ones and relatives at the passing of this cultured, Christian woman and beloved teacher.

Her Marriage.

Miss Florence Clementson and Dr. John E. Gibson, a rising young Tennessee practicing physician, were united in marriage at Athens in the state of Tennessee Sept. 16, 1874, and lived an ideally happy married life for fifty-three years, ending with his death on Sept. 19, 1927. She and her young physician husband came to Texas and located at McKinney in 1880, she having therefore been a resident of this city for a period of fifty-three years, where Dr. Gibson became one of the most successful, widely-known and generally esteemed physicians and surgeons who ever practiced in McKinney.

◆ ◆ ◆

Her Survivors.

Mrs. Gibson is survived by one brother, John M. Clemantson, of Mathis, South Texas, and by one sister, Mrs. John Johnson, of this city. She is also survived by several nephews and nieces and by a multitude of admiring friends and acquaintances and as above stated by almost innumerable music pupils scattered everywhere, who will join in extending sympathy to the bereaved relatives. When a girl, Mrs. Gibson's parents were neighbors and friends of the noted Taylor family of Tennessee, two of whose sons, Robert L. and Alfred Taylor, later became governors and famous statesman of that state. When Gov. Bob Taylor, who was noted as a lecturer and gifted word painter, came through this section of Texas on his lecture tours from twenty to thirty years ago, he always made it a point to visit in the Dr. Gibson home with these former Tennessee friends of his youth and young manhood. Although Dr. and Mrs. Gibson were not blessed with children of their own, they were both dear lovers of children and the latter always idolized them. Mrs. Gibson was an ideal home-maker, who spared neither labor, expense nor artistic touch to add charm to their home in the way of flowers, canary birds, parrots, pet dogs and cats. Her fondness for flowers, canary birds and parrots was equal to her love of the beautiful in art and music. She loved life, friends and all things that count for human nobility in the way of culture and refinement. She led a busy life until the very last when frailities of advancing age rendered it impossible for her to longer continue teaching.

She was an ardent believer in the philosophy of Elbert Hubbard in "That the vintage of wisdom is that rest is rust and that life is love, laughter and work."

ROTARYANNS ENTERTAINED BY ROTARIANS

Annual "ladies' night" banquet by the Rotarians was held Friday evening at 7 o'clock in the spacious dining hall of the First Methodist church, where one of the most unique entertainments probably ever given honoring the ladies, was enjoyed.

The banquet hall was most attractive with its festive decorations in Rotary colors of gold and blue. One large banquet table, in the form of a huge square, was arranged for the guests. It was centered with a large electrically lighted Rotary wheel emblem, on which was a vase of marigolds. Around the wheel were burning tapers in the chosen colors, while streamers leading from the center of the table, added to the decorative scheme.

Mr. and Mrs. F. D. Perkins, Mr. and Mrs. Gibson Caldwell, Mr. and Mrs. W. Hammond Moore, Mr. and Mrs. Henry W. Warden and Mrs. W. R. Abernathy were in charge of decorations.

A delicious three-course turkey dinner was served under the chairmanship of Mrs. J. L. Bright and the following women and young ladies of the church: Mrs. Lillie Emerson, Mrs. I. R. Dillow, Mrs. Walter Keen, Mrs. Wade Biggers, Miss Nola Bess Klutts, Mrs. Wallace Hughston, Mrs. T. L. Burke, Miss Leona Watson and Miss Alma Bright. Mr. and Mrs. T. L. Burke, representatives for Admiration coffee, furnished this delightful beverage for the tempting meal.

Throughout the evening much merry-making was indulged in through the use of dunce caps and whistles, under the leadership of Jack P. McCullough. The ladies were presented with hanging vases in hues of crystal, blue and red as favors. Pep songs were lead by Rotarian Ham Moore with Mrs. Gibson Caldwell at the piano.

Rotarian F. D. Perkins, chairman of the program committee, stated the entertainment would be somewhat different during the evening, since there would be no speech making. The guests were divided into groups and assigned to tables where for fifteen minutes they seriously entered into solving "jig-saw" puzzles. This was followed by a "peanut race," Mrs. W. T. Hoard and Dr. C. M. Simpson, being the winners.

The feature of the evening was a "picture show." Though it was not as our modern talkies, probably proved to be much more entertaining, since the pictures were portraits of all the guests, many of them having been taken from babyhood to young manhood and young womanhood. These pictures were flashed upon a screen under the direction of T. E. Craig, W. Hammond Moore and H. H. Neilson. As each portrait was shown members of the audience were allowed to guess "who they were." The solemness of expression and mode of dress of from twenty-five to thirty years ago, noted on the photographs, caused much hilarity and laughter.

One of the snappiest and most amusing meetings of the Rotarians and Rotaryannes ever held was adjourned by the president, Rotarian Neilson, with a feeling that a splendid success had been scored.

A LITTLE THEATER?

We are always "harping" on some favorite subject. At any rate, we think McKinney should have a livewire Little theater organization. And, until it is reorganized, you may find many other paragraphs similar to this one in our column. Sherman, Gainesville, Denison, Bonham and other North Texas cities all have A-1 Little theater groups and, from accounts in newspapers in those cities, their presentations are always a big success. Everyone likes good home-town entertainment, such as a L. T. group gives. We once had such a group here and the memory of those fine plays, so expertly presented, still lingers in our memory. Who will take the lead in the reorganization of our Little Theater group? With so much talent in our city, we could easily have one of the leading L. T. groups in the state. Think it over.

WHAT'S WORSE THAN WAR?

There comes to our desk an interesting pamphlet called "They Call Us Civilized," published by the Travelers Insurance company of Hartford, Connecticut. The very first thing that attracted our attention was this heading in big letters, "What's Worse Than War?" It goes on to say: "During all the wars in which this country has engaged as a nation—the Revolutionary, the War of 1812, the Mexican war, the Civil war, the Spanish-American and the World war—Americans killed in action or who died of wounds, numbered under 300,000. During the past fifteen years—a period approximating the total duration of these six major wars—Americans killed in automobile accidents within the United States or who died of such injuries have numbered 325,000." As you will readily see, the information seeks to impress upon us the fact that we must be more careful, thereby preventing so many highway accidents.

THE PARADE GOES ON.

Another interesting page in the pamphlet is depicted under this wording: "The Parade Goes On," showing that the year's auto death record of 29,000 is much greater in number than the combined catastrophes of recent years. They show that 1,517 deaths resulted from the Titanic disaster, 372 from the Palm Beach hurricane, 98 from the Knickerbocker theater collapse, 500 from the San Francisco earthquake, 260 from the explosion of the Battleship Maine, 14 from the wreck of the Shenandoah and 317 from the Ohio State penitentiary fire. And yet, as we shuddered from these calamities, we do not stop to realize that 27,000 deaths resulted from automobile accidents. These things should cause all of us to be more careful in the future, realizing that our cautiousness may save a life.

HOW THE R. F. C. WORKS.

The workings of the R. F. C. Relief fund committee was recently explained to members of the McKinney Junior Chamber of Commerce by F. D. Perkins, city chairman of this important work our government is doing. He is giving liberally of his time and ability in this highly important project that relieves suffering and gives needed employment to worthy people. Believing you're interested in how the R. F. C. works, we're going to briefly give you some facts, as described by Mr. Perkins. The original law appropriated $3,000,000,000 to strengthen credits and stem the tide that has set in against business, he explains. In the face of criticism on the part of some, the work has been a great help to our nation. It has done much good in a time of great emergency, easing the strain of credit and saving worthy enterprises. Of the original loan of $3,000,000,000, a total of $300,000,000 has already been paid back and more is being received than is being loaned at the present time. Passing on to the second part of the R. F. C. loan, Mr. Perkins explains that a loan of $300,000,000 of the original $3,000,000,000 has been made for the unemployed of the nation. That is the act they are working under in this city and county. This is for people unable to work and for those who have no other employment. The fund is alloted out to individuals through a committee in each county. The character of work for which the funds may be paid includes building of good roads, paving city streets, cleaning public parks and other jobs of this nature. In no instance can it be used for improving private property. "Naturally, we feel we are doing much good. We are trying our best to get value received," Mr. Perkins says. He and other workers are giving their time free in this cause. The only remuneration they get is "the kick" from having a part in making so many people happy. He says that most of our residents still have a large amount of courage left and that those men who are thus employed do not like to beg, and object to being placed on charity. As a result when they are given their slips, their faces glow and they square their shoulders, looking the world square in the face. Mr. Perkins said that several hundred men have been helped in this respect here in the past two months. The manner in which this R. F. C. fund will be paid back was explained by this McKinney civic leader, payments to be taken out of the federal aid on good roads in five separate payments.

T. E. Craig is county chairman of the R. F. C. fund committee and he as well as numerous other public-spirited citizens are donating their time free to this work.

31 PERSONAL FOULS CALLED IN GAME HERE

Unleashing a slightly more effective offense, the Farmersville High Farmers, Collin County Class A champions, defeated the Allen High Eagles, Class B champions, in the first of a three-game series for the championship, at the local coliseum court Friday night. The score was 30-24.

The Farmers took a slight lead and held the advantage throughout the game—even after two of their stars, Joe Aycock, center, and big Dallas Thornton, captain and forward, had fouled out in the third quarter.

Both teams were "steamed up" for the game and both decidedly nervous and erratic. Farmersville missed a large number of crip shots, while the Allen boys threw the ball away repeatedly. Thirty-one personal fouls were called during the game by Mr. Anderson of the Lowe and Campbell sporting goods company of Dallas, who refereed.

Thornton and Cuffman, Allen forward, were high-scorers, tieing with 11 points apiece, while Thos. Miller, Allen guard, heaved in 9, sinking four field goals in the second quarter to keep his team in the running.

Jack Jewett, pint-sized Farmersville substitute, who replaced Aycock at forward, saved the day for the Farmers with two beautiful field goals in the last two minutes of play.

Congratulations From Prominent Greenville Man

Greenville, Texas, Feb. 15th, 1933. Editors Perkins & Wilson, McKinney, Texas.

MY DEAR TOM AND WALTER:

I notice you are entering upon the fiftieth year of the publication of the Weekly Democrat-Gazette, according to my notion, one of the best gotten up papers published in Texas. Full of news happenings of your County, State and Nation, and well patronized by the advertisers of your city.

I appreciate you two men beyond expression. You are doing a great work, filling a great mission in the world. I appreciate your stand on public questions—that of standing for definite principles — Christian homes, for morality, better schools, better churches and a society in conformity to the ideals and fundamentals upon which our Government was founded. We need more men, and especially newspaper men, who would take such stands. What a great country this would be if such was the fact.

May you continue to live and serve your town, your county, state and nation for many, many future years, is my sincere wish for both of you.

Truly, your friend,
JESS F. MORRIS.

The officers of the Diamond Z are Frances Biggers, patrol leader, and Billy Louise Simpson, assistant. The officers of the Turkey Track are Maurine Skelton, leader, and Sue Evelyn Brown, assistant.

SOME FACTS ABOUT SEVEN TEACHER COLLEGES

Rev. Minor Bounds, pastor of the First Methodist church at Commerce and publisher of the Commerce Methodist, a weekly paper, gives the following examples of the cost to tax payers in two groups. Texas is proud of her seven teachers colleges. You should study this:

◆ ◆ ◆

Cost of State Teachers Colleges to Individual Tax Payer.

The following figures will reveal the actual expenditures of state taxes for higher education, on basis of assessed valuations, and particularly that portion which goes to the support of teachers colleges, and reveals the amount saved should these seven institutions be abolished.

Assessed Valuation	$14,500.00
State Ad Valorem 69c	100.00
Higher Education approximately 1-7	14.28
7 Teachers Colleges approximately 1-6	2.38
1 Teachers College 1-7	.34

◆ ◆ ◆

Assessed Valuation	$2,500.00
State Ad Valorem 69c	17.25
Higher Education Approximately 1-7	2.46
7 Teachers Colleges Approximately 1-6	.41
1 Teachers College 1-7	.06
Assessed Valuation	$1,250.00
State Ad Valorem 69c	8.62
Higher Education Approximately 1-7	1.23
7 Teachers Colleges approximately	.21
1 Teachers College 1-7	.03

◆ ◆ ◆

If all seven teachers colleges were abolished, the man in the first group would save $2.38, the man in the second group would save only 41c and the man in the third group would save 21c, or, all added together would not be saving enough to pay one-third of the license fee on a $650.00 automobile. It should be easily seen that the abolition of all seven teachers colleges would not materially reduce the State Ad Valorem Tax on the individual.
